

Walsall Society for the Blind and Optelec invite you to a **Focus Day** for anyone with sight loss.

Monday, 13th February, 2017 - 11.00 am to 1.00 pm
Walsall Society for the Blind, Hawley House,
11 Hatherton Road, Walsall WS1 1XS.

Demonstrations will be available of the **Optelec Traveller HD**, a unique and portable handheld video magnifier, with a generous 13-inch widescreen and a sliding camera for fluent reading.

Try the **Optelec ClearView-C** the latest desktop magnifier designed to improve your reading experience. The unique, C-shaped video magnifier provides you with more working space, giving greater freedom when reading from larger size pages of a newspaper, and also for craftwork.

Demonstrations will be available of the **Optelec Compact+ HD** – a handheld video magnifier offering a retractable handle and all the benefits of powerful magnification in high contrast and High Definition.

Do you find it difficult reading the headlines of your favourite magazine? Demonstrations will be available of the **ClearReader+**. Simply switch-on, scan a magazine article and start listening in an instant using a choice of natural sounding voices.

To request an introductory Optelec low vision information pack, call **Freephone 080 8090 8090** or browse online – **www.optelec.co.uk**

For further information, call **Walsall Society for the Blind** on **01922 627 683**.
